

Report from the PAEE Steering Group

Matters arising from the October 2024 meeting

The Steering Group meeting was held on Monday 28 October at the head offices of the Royal NBA in Amsterdam.

The meeting was hosted by Barry van Brenk and Jan Jaap Boontjes from Royal NBA who gave an introduction to the current work taking place around education in the Netherlands.

Adriana reported that an invitation to join the IFAC IPAE as an observer had been officially received from Bruce Vivian and it was agreed that Adriana would accept the offer and an observer from PAEE would attend the IPAE meetings.

The Steering Group agreed their focus should be on sustainability and engagement with existing full member bodies in the short term. A comparative piece would be developed based on all members' work on sustainability education. The learning outcomes would be benchmarked against the latest IFAC exposure draft and the relevant PAEE Technical and Enabling competencies.

The Steering Group agreed that the full member body self-assessments would now take place in Q3 and 4 2025 with the sustainability work taken forward while the self-assessments were carried out by all full member bodies.

Oversight Committee report for July 2023 to June 2024 was approved for publication on the website.

The Technical Competencies that had been revised to incorporate sustainability were reported on. The Sustainability Task Force would meet to discuss these more before a final version was provided to the Steering Group for ratification.

The Steering Group received an update on the work of the Task Forces.

The Steering Group received a report on the current financial position of the PAEE.
